

Dear Clients -

Thank you so much for giving me the opportunity to work on this project for you! I had a lot of fun with the design and hope you like what you see! I know there's a lot of information in this email, but I want to make sure you have everything you need to carry out the designs for your space. First, I want to explain the attached design board so you understand what you're looking at:

- **PAINT:** The Paint Scheme I used in your design is as follows:

Option 1: Ceilings + Trim | WHITE: Sherwin Williams - Snowbound SW7004

Option 1: Walls | GREIGE: Sherwin Williams - Agreeable Gray SW7029

Option 2: Ceilings + Trim | WHITE: Dunn Edwards - Cool December DEW383

Option 2: Walls | WARM GRAY: Dunn Edwards - Cloud DEC791

Option 3: Ceilings + Trim | WHITE: Benjamin Moore - Chantilly Lace OC-65

Option 3: Walls | COOL GRAY: Benjamin Moore - Sterling 1591

For walls I prefer an eggshell finish and for ceilings I like a matte finish, but an eggshell finish for both is also very common. For baseboards, door and window trim, use a semi-gloss finish.

Tips + Tricks:

- Make sure to take off all switch plates, outlet plates, artwork, sconces, or whatever else might be up on your walls for a clean slate!
- Cutting In: For all the edges (i.e. where the ceiling meets the wall or around trim) be sure to use an angled brush! If you don't have a steady hand or don't trust yourself, blue painters tape is your new best friend!
- Be sure to lay down plastic or a rag at least in the space you are working in. I prefer to cover any furniture/flooring with plastic especially when I'm doing the ceilings, because when you use a roller, there will 100% be 'paint spray'

That completes all the information you should need to paint your living room! If you have questions or need assistance in any way, I would be happy to schedule your 15 minute Zoom chat at [this link](#).

I would also love to be able to use this design as an example on my website if you are OK with that? If you also wouldn't mind reviewing your experience at [this link](#) I would SO appreciate it - it shouldn't take more than 10 minutes! ;)

Thank you again and can't wait to see your project come to life!
